

## SOUND LOUNGE ADR/VO KIT SETUP

### What's in the box?

Remote rig includes: Macbook w/ charger, \*Audio Interface, USB cable, headphones, \*\*microphone, mic stand and mic XLR cable.

*\*The kit may have a slightly different looking audio interface than shown*

*\*\*For ADR there will also be a second smaller Lavalier microphone.*

Attach the microphone to the microphone stand.

Plug in the microphone (XLR) cable into the back of the microphone

Plug the other end of the microphone (XLR) cable into INPUT 1 on the audio interface.

Make sure the 48V button is on (lit RED)

\*For ADR plug the smaller Lavalier microphone into INPUT 2.

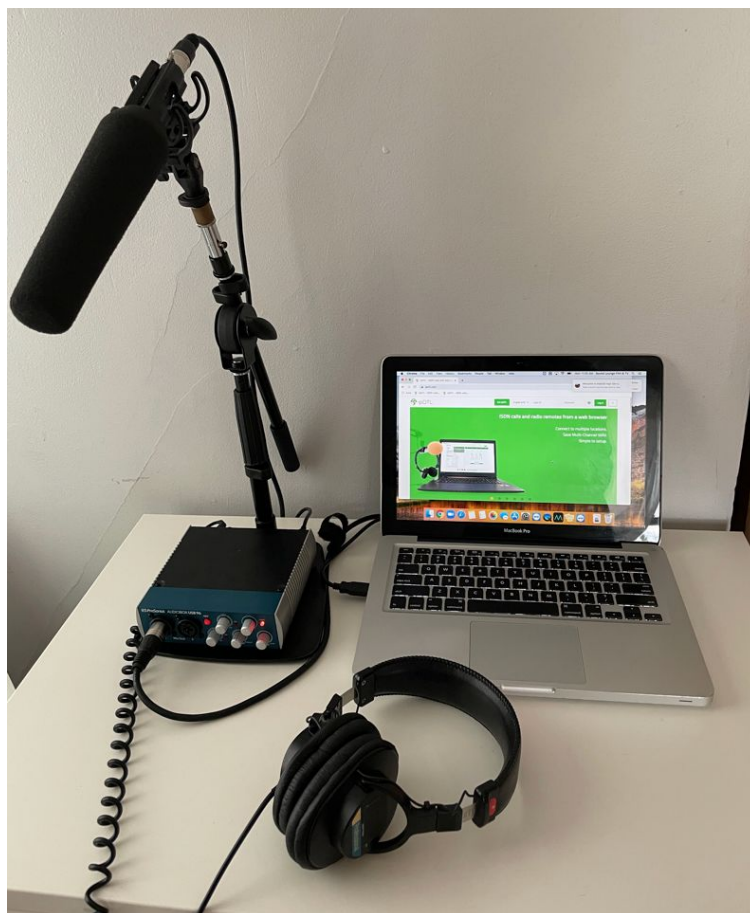

Plug the USB cable into the back of the audio interface

Plug the headphones into the back of the audio interface

Plug the audio interface USB into the computer

Power up the computer and connect it to your WiFi.  
You're ready to record!

## REMOTE RIG BASIC SETUP

Remote rig includes: Macbook w/ charger, audio interface, USB cable, headphones, microphone, mic stand and mic XLR cable.

\*Lavalier mic included for ADR
